Offer for New Subscriptions Generous and Will Position Contests in News Campaign

A rumor has reached the News office during the last 24 hours that new subscribers can scarcely be without some foundation to believe that a certain candidate has been quietly working, getting together a list of subscribers when turned in to votes, will noticeably increase the total value of the votes, and by so doing, work for the candidate's election. It is expected that the clever politician will again, some other candidate, like the more clever politician, may call the turn by having a larger bundle of registered votes, so it behooves each and every one to take advantage of this week's bonus offer and Friday night bring in the contest office a report which will somebody who the old and new subscribers.

One of the most exciting races, the history of Miami County is now in progress in the News subscription campaign. All candidates are aware of the possibilities and have friends who are strong supporters and determined their favorites shall win the big price.

The most active part of the struggle begins now. In a few days the contestists will be called upon to put forth every effort to stand among the leaders now, keeping to the front every minute, will do away with one third of the extras at the close. Now is the time, while you can secure votes from the wonderful offer, to get in your hardest lift. Don't fail to save a good substantial bonus every Friday for it will pay you better than a hundred shares of gold mine stock, for you will have evidence of your effort to show December 1.

Obviously, then every one should work hardest for the new subscribers and try to get the highest ballot position. For the candidates are all in advance at the close of the contest and the prize of the campaign.

Here's an Explanation

A ballot to be a 10. Adam had no option to obey—Toldeo Blade.

A WONDERFUL OPPORTUNITY

By the Subscription Club we mean just that. This campaign will be conducted in the most practical and method manner we can have decided the number of ballots to each, choosing them at random with no particular idea of territory in order that no favoritism will be shown in any way. By this method everyone will receive the same opportunity of securing the Special offers given in the following manner:

We have divided the workable time from Sept. 3 to Sept. 28. We will give three Special Ballots to 500, 500 and 500 votes to the candidates in each club who secure the greatest number of New Subscribers for the period ending Sept. 28. This Special Ballot will NOT interfere with the regular ballot of bonus votes offered each week which ends the regular ballot of bonus votes offered each week which ends Friday. Subscribers should be in mind that every Friday is Emperor's Day, and should try to save the highest possible ballot of extra votes each week. This activity should be encouraged in order to get the highest possible ballot of extra votes in that day, and always remember that the SPECIAL BALLOT for the greatest number of New subscribers is an EXTRA proposition and strive accordingly for them.
