Tornado Sweeps Northern Ohio Towns Yesterday

Ohioans Huron, North Ridge and Crestline

More than 20 dwellings were razed by the tornado and hundreds more unoccupied or otherwise damaged. Several persons were injured. The storm was actually a series of three small tornadoes, forcing the route to be canceled just as the storm appeared in the sky.

Yesterday's storm breaks just as country schools were adjourning for the vacation. Huron, near school teachers teaching the class before the storm, hurriedly started her class to a nearby hill, with safety the foremost concern.

Frightened citizens lay on the ground and there was no way to get out of the path of the tornado. Many families were forced to abandon their homes as the storm passed over their property.

Tupper Lake, Hammondville and Millport suffered heavily from property damage and flood waters which followed the tornado.

The storm, which first manifested itself at Liberty Hill, was thought to have blown into Lake Erie, but reports from Lake Erie indicate that the cyclone moved off the coast. A large number of trees were uprooted, and severe damage was done to homes and hundreds of buildings.

In the town of Crestline, homes were damaged and a school was demolished. In Millport, homes were damaged and a school was destroyed. In Tupper Lake, homes were damaged and a school was demolished.

Cleveland, Ohio—Sept 24—Paul Besic, middleweight, all-Ohio halfback, in his last contest, will be a prominent feature on the grid when he goes into action against Xavier College. Xavier gives up its best offensive recruit to the Big Ten. Xavier's outside line is also strong and can give Besic a hard time.
