IMPRISONED MINERS ARE WITHOUT FOOD

BULLETIN

Ironwood, Mich., Sept. 27—Hope flared anew in the affrighted hearts of the miners arrested in the strike at the Zinc-Oliver Mining Company’s Palisades mine today. According to company officials, peace workers will reach the trapped miners by Wednesday and it is believed they all will be alive and be rescued alive until then. Should the rescue be delayed, however, the miners will be brought to life Wednesday. It is believed. All the men are badly crowded and many days, if necessary, without food.

Ironwood, Mich., Sept. 27—The mining country beyond today almost aghast. Angry mobs of 48 miners were thrown in the Lathmine of the Zinc-Oliver Mining Company since Friday. In spite of the efforts of the mining company officials, there are many here, none of whom are arch-smugglers, who believe that the miners will survive the long wait in the outside air. These people have already been rescued.

The miners are known to be without food, they have a ample supply of water, and the small mineral water keeps through various times in the eighth floor. It was a.

Disaster has created several fortunes among citizens in this great trip rule of the upper peninsula, Wisconsin and Minnesota. Thousands have come this city over the weekend. The miners were enraged to keep relatives and friends from the fire. The citizens are getting to come close to the mine. Near 200 men are sitting in the rescue work. They are working four-hour shifts. Nine officials refused to permit Lewis Glenn, a miner, to risk his life in an effort to save the miners without knowing if others.

IMPRISONED MINERS ARE WITHOUT FOOD

BULLETIN
(St. R. & I. Dispatches)

Iowa City, Iowa, Sept. 27—Rugged
faced mine today to rescue of 41
miners entombed during explo-

dition in the company’s Palisades
mine.

Following company officials,
enemy workers will rescue the trap-
piled miners by Wednesday and it
is believed the miners will be able
to escape the mine.

Should the rescue be delayed, to
be discussed, or the men never be
brought out, it is feared.

The entombed men have an ample
supply of water, which is suf-
ficient to keep them alive until
Wednesday, it is believed. As the
men are hardy and able to go
days if necessary, without food

Ironwood, Mich., Sept. 27—The min-
ing country today suffered almost
a major blow when 41 miners
entombed in the Palisades mine of the

crushing Iron Company were rescued.

In spite of the optimism of the
company officials, there are many
who, of whom are relatives, who believ-
ed the entombed men will never be
brought out from the mine.

Some bodies have already been re-
covered.

Though the miners are known to be
without food, they have an ample
supply of water, officials say. Favor-

able conditions of the weather make
it possible that the men will be able
to remain alive until Wednesday.

The disaster has created feverish
interest among citizens in this great
mining city and the neighboring towns.

Several thousand women and girls
are taking part in the rescue work.

Two men have been seriously
wounded, according to officials.

Vermilion, Ohio, Sept. 27—Authorities
here today are investigating the

collision between a New York Central

train and an automobile which

hit an elderly woman.

The driver of the automobile, Mrs.
G. E. Miller, 80, of the city, was

severely injured in the accident.

It is believed that Miller stopped

her car too close to the train, which

had made a sharp turn on the other
side of the tracks. She was thrown

into the air and she fell to the

sidewalk.

The woman was taken to the

hospital and is expected to recover.

Dear Folks—I suppose you have seen 
the papers the report of the 
big tornado in South Flor-
a. Yes, the sun is shining and I am writing this note as it 
seems—always sunny, after 
our experience, as our house was the only one in North 
Hollywood to stand the storm.

Our house stands like a monument 
all by itself and is endangered except 
for a few holes in the roof, that let in 
the water, that made some of the plastering fall from the ceiling.

It is misery, poverty and 
and all over. Houses flattened on 
every side as far as the eye can see. A town of 20000 left flat by the wind.

Martial law is being enforced by 
U. S. Soldiers. We escaped without

Why Police Answer

Chicago, June 9—A call out to New Orleans police to assist in the investigation of a pedestrian accident and a motorcycle accident was sent by the New Orleans police. The accident occurred in the early morning hours of April 14. Two pedestrians were hit by a motorcycle and one pedestrian was killed. The other pedestrian was injured and taken to a nearby hospital. The investigation continued for several weeks and was eventually closed without any charges being filed. The accident was determined to be the result of a tragic and unfortunate incident.
