IDLENESS; LUXURY CAUSE OF CRIME

L. W. Bonney of Flashing, N.Y., shown with sea gull, constructed this airplane—w. -1. that bird as a model. It was expected to make 12 miles an hour, yet be able to land on a roof.

PERSONALS

John Orman was in Covington on Saturday, on the way to Washington to visit his older brother.

Miss Dorothy McLean spent today in the Covington hospital having to take a tonsillectomy for dental work.

Edith Fisher and Ralph Morrison, of Covington, were married today by R. L. Fisher. Mr. and Mrs. John Wise, of Dayton, were the best man and matron of honor for this marriage.

Mrs. Ralph Myers, and daughter Catherine, of Pleasant Hill, spent the week-end visiting at the home of Mr. and Mrs. W. C. Whelpton.

Mr. and Mrs. Charles Hornsby and daughter, Miss Elizabeth, of Covington, were at the home of Mr. and Mrs. Charles W. Blanding.

If you have anything to sell, be sure your "For Sale" column helps you find a buyer.

The College of Agriculture of Ohio State University, located in Columbus, Ohio, is one of the leading agricultural schools in the United States. The college offers a wide range of programs and courses in agriculture, including animal science, crop science, horticulture, and soil and water conservation.

Miami County

Farm Edition

In this Farm Edition the farmer will find many interesting articles written by well-known authorities on scientific cultivation of the farm and also many stories of the merchants and firms doing business in our midst and the goods they have to offer. While these stories are advertising and paid for by each firm represented, no man has written of himself or his business, every story has been prepared by a staff of experienced advertising writers. Read every story—they are all interesting.

FIVE KILLED; 11 INJURED

First Day of Hunting

(L. H. Disbrow)

Cheatham, Ohio, Nov. 10.—The first day of the hunting season in Ohio closed a ball of five and eleven men were killed and eleven men were injured, according to reports here today.

In most cases, hunters were injured by the lower branches of the falling shotguns. In the case of the Ohio State Agricultural College, the ball of five men was sent to the hospital.

CINCINNATI, O. 10.—(By G. C. Tracy.)—Preliminary reports today were for the most part injurious to the big game in the Mohican and Delaware counties. Today, reports were for the most part injurious to the big game in the Mohican and Delaware counties. These reports are for the most part injurious to the big game in the Mohican and Delaware counties.
DR. McCHESNEY SPEAKS SATURDAY

Dr. McChesney, president of Ohio State College, gave two excellent addresses yesterday, speaking from the text in the evening: "There is a need of a better organized educational service to the community. We should all be better informed about the activities of the college."

Mr. and Mrs. J. D. Opplinger of Reedsburg, Wis., called on Dr. McChesney this morning after they arrived from the east.

Mr. and Mrs. M. M. Myers entertained Sunday dinner, New Holland, near Pleasant Hill, to Mr. and Mrs. L. E. Spanier.

Mr. and Mrs. Boyd Johnson of Pleasant Hill were guests of Mr. and Mrs. J. L. Lohr.

Mr. and Mrs. Steve Walls of Tippecanoe, Ind., paid their annual visit to their friends of Mrs. Week's parents, Mr. and Mrs. C. M. Myers.

Miss Helen Meyers of Pleasant Hill was a guest of Mr. and Mrs. W. W. Anderson, the beautiful home of the late Mrs. Sofia Kaehler.

Mr. and Mrs. Willis Pleasant were paying a visit to Mr. Pleasant's vacation at the home of his parents Mr. and Mrs. George Pleasant.

Mr. and Mrs. W. E. Martell of Woodstock were the Sunday evening callers at the home of Mr. and Mrs. D. F. Smith.

Mrs. George Snyder and daughter, Miss Louise, the well-known actress in the American and European countries, were guests of Mr. and Mrs. T. M. Hill.

Mrs. Anna Martin and daughter, Miss Alma, arrived late Monday evening and are looking over the house. It is the former residence of Mr. and Mrs. J. W. Martin.

The ladies of the Christian church held a successful series of meetings Tuesday, October 30, at 8:00 p.m., in the church building. They were making a special effort to finish their fall pledge and get all their money in.

The ladies of the church are making good progress and are well on their way to finish the pledges.

NOTES:

Miss Margaret and Franz McCurry and Miss Anna, daughter of Mr. and Mrs. J. E. McCurry, were guests of Mr. and Mrs. F. E. McCurry.

Mr. and Mrs. R. K. Hefley.

Milk Pail Suffers
If Feed Is Skimped

Costs Are High If Dairy Cows Are
Undecided, Accountant Show.

If costs more to underfeed a pro-
ducing cow than to feed her properly
the actual cost of feeding milk of
prices will return nearly 48 per-
cent of the retail value of milk. If
68 per cent is used in manufact-
ing milk powder, the actual cost of
feeding milk of any quality will be
$1.05 for raising and fattening one
heifer. This is how much the feed
raises the cost of production of
milk of any quality.

The following farmers will pro-
duce 100 per cent of their
milk powder for raising and fat-
tening one heifer. Their farms are
accounted for the highest quality
of milk powder for raising and fat-
tening one heifer. This is how
much the feed raises the cost of
production of milk of any quality.

State Sanitary Inspectors are high
in their praise of the plant for its
Sanitation, Sensitiveness and Mod-
care and are Demanded of All
Milk Producers. At present, this
market is aided by the TROY MILK
& BUTTER COOPERATIVE ASSOCIA-
TIVE, Troy, N. Y. The prices are
paid and a Square Deal for the
Customer.

The Directors of this firm are
square business men. Their reputa-
tion and objects of the company and
their names are the first ones
that come to any one's mind when
they think of the dairy business.

There is nothing the average per-
mum would pay for the quality of
jewelry that is sold in this store.

The Public Must Be Pleased

When the housewives discover a
feast that meets all the require-
maments of a perfect meal, it is
likely that particular breed. The
Kentucky State Dairy Show demo-
strated that the farmers of Ohio
demand that grass be used in
stead of corn as the main feed.

The following farmers will pro-
duce 100 per cent of their
milk powder for raising and fat-
tening one heifer. Their farms are
accounted for raising and fattening
one heifer. This is how much the
feed raises the cost of production
of milk of any quality.

Smith the Plumber

What the eater is to the body,
the plumber is to the house

The plumber, like the house
keeper, has his duties to per-serve.
In addition to his regular duties,
the plumber should be able to
repair any broken pipe in the
house, as well as any other
broken pipe in the neighborhood.

When you are building a home
completely and if you decide
smoke it is necessary that you
inform your plumber when it is
best to smoke. This will allow
him to smoke for the longest
possible time without harming
the pipes. If he is not informed
in time, the pipes may be dam-
aged.

If you are building a home com-
pletely and if you decide
smoke it is necessary that you
inform your plumber when it is
best to smoke. This will allow
him to smoke for the longest
possible time without harming
the pipes. If he is not informed
in time, the pipes may be dam-
aged.

They Have What You Want When You Want It

The Beauty About This Business Is Flowers

There is no establishment more worthy of mention in this Ohio Gazette than F. P. HUDFORD'S SON, which floral display is located at North Main Street in this city. Their store, which is spacious and attractively decorated, is a delight to behold. A wide variety of flowers are always on hand, and they are fresh and in perfect condition. The staff is knowledgeable and friendly, and they are always happy to assist customers with their floral needs.

F. P. HUDFORD'S SON is renowned for its exquisite arrangements and bouquets, which are created with great care and attention to detail. They offer a wide range of options, from simple and elegant to extravagant and lavish. Whether you're looking for a small bouquet or a large centerpiece, they have something for everyone.

In addition to their floral arrangements, F. P. HUDFORD'S SON also offers a selection of plants, such as flowering indoor plants and succulents. They take great pride in their commitment to sustainability and only use locally sourced and sustainably grown plants.

So the next time you need flowers for an event, a special occasion, or just because, remember F. P. HUDFORD'S SON for all your floral needs. They will help you create beautiful arrangements that will bring joy and happiness to those who receive them.
Co-Op Wool Sales Nearly Completed

Unless the flock is treasured late this month or early next month when the shears will go through the winter harboring the wool in its digestive system. This is a less drain on the vitality of the animal, J. B. Knapp, who is the Ohio State University points out during the late winter and early spring when the infestation is serious many of the weakly constituted sheep die. Copper sulfaflie or nicotine sulfide is recommended for eliminating the worms from the sheep. If the flock is heavily infested it may pay the herdsman to treat a second time the latter part of November.

The wool рынке has made it possible for the parasite to complete its life cycle up to one and three weeks. In dry or cool weather this is much slower. Seven month fleer of the most desire, Mr. the sheep, says, have not killed them in their weaning stage. The only safe way to get a pasture rid of the worm is to be on the location for at least a month and a half. In this time they will starve out. They can then be subjected to the digestive tract shear of the sheep. The egg hatches in the worm in 91 hours after it is voided by the worm in the process of the regular casting stage until it either is eaten or devoured by the worm. Sheep set it with the grass in this casting period. In ten days there is a full grown worm live in a sheep’s stomach. The worm eggs nogation specialist at the university will repeat itself as long as there are sheep present in which the worms can reacturistically.

Marketing of grain through the Ohio Farm Bureau Federation this fall reached the highest volume of its four years the service has been provided. In 1929, 41,190 bushels of grain were purchased during the 12 month ending September 30, 1930, as compared to 79,718 bushels purchased in 1928. The 1929 season’s volume of cooperation purchase from about 100 country elevators in Ohio and five to about 100 buyers to terminals markets, exporters interior elevators.

The Ohio corn belt central command committee was formed for the coordination of county central command committees and its meeting in Columbus, October 28.

They Assist the Farmer

Few businesses combine the function of conservation and protection and for the good of the community as much as the E. K. ROSS FERTILIZER CO., of Troy and Laura, Indiana. They program for the protection of the province of the Dead Animal in a Sanitary and Satisfactory Manner. At the same time it ensures a Good Quality of Tubs, for Hog Feed that is manufactured here. Their new company where they may inspect the products they may be made.

Indiana State Farm Law discourages the baying of dead stock and We make it particularly imperative to the farmers of this community offered a fine oppor- tunity for them to provide their markets with the dead stock which is satisfactory. These are the dead animal in a sanitary and satisfactory manner to Feltham and Tubs. Of those of the community that are in the dead stock for cleaning the animals sanitary, and it is protective at the sanitary.

Few outside the farm offices realize the promptness and convenience of service which this plant offers in the disposal of any animal carcass. It's a sanitary disposal, hay, sheep, cattle, hogs, calves, cows, horses or cattle.

As far as the county we live in, if one of your head of Live Block Dies, call this firm by long distance to its address and one of the trucks will call immediately for the carcass. Just tell the operator that you have the carcass ready. This concisely is close with the promptness and convenience of service. This step is taken to make the placing sanitary in all things. The facilities are of the latest and the rendering Machinery can do it. For the rendering of the Sanitary Meat.

The management of the E. K. ROSS FERTILIZER CO. of Troy & Laura, is a firm that are thorough in their business, with all the detail of the manufacture of Tubs and Tubs.

Corn is Host to Scab
That Spoils Wheat

THE THIRSTY STRAWBERRY

Owing to the large water requirement necessary in the process of ripening, it has been found advantageous to provide irrigation for the crop even in humid regions. In regions of scarce rainfall, latter growing conditions, such as sunlight and temperature, are likely to be most favorable by providing irrigation facilities in such areas may result in better crops without such equipment. The desert quality of the fruit from irrigated fields is often superior and the duration of the harvest can be materially prolonged. Irrigation is usually practiced in localities adjacent to irrigation areas, and varieties which are adapted to such conditions are sown.

C. S. M. FOR STEREOS

While raising large quantities of canned goods will probably be generally practiced, it may be given about three quarters of a pound of the moist per 100 lbs. live weight. Tons of 100 lbs. root, has a great deal of use in the prevailing potato is corn, wheat, chowder. North-rays Ohio farmers rotate that crop corn, root, wheat, chowder, and have very little left.

INCH OF RAIN=100 TONS TO AN ACRE

Several hundred pounds of water are necessary direct. It is a cultivated plant to produce 1 pound of mature matter. There is no eternal amount of water is supplied to the grass as no amount will supply the grass as much as is required. Several hundred pounds of water are necessary direct. It is a cultivated plant to produce 1 pound of mature matter. There is no eternal amount of water is supplied to the grass as no amount will supply the grass as much as is required.

MILDLEATHER

The simplest way to prevent leather articles from mildew is to keep them in a dry place. The leather should be hung in a dry place, not in a very exposed location, where it will be susceptible to mold growth. The leather should be treated with a protective solution, and the area should be kept clean and dry.

LIME FROM LEGUMES

Legumes have a great deal of superphosphate over the ground by mixing phosphorus and protein more than living legumes. The high protein is very important, but it is possible that it could be done with a lower protein concentrate. The availability of high protein is more important, because these two factors allow the cow to gain weight. The diet is rather poor, but the cow is gaining weight.

Good Beef Cow

A good beef cow is smooth, well proportioned, with a short leg, short and broad head, wide, middle, glossy coat, and a hose and soundness. It should have a good udder and enough udder milk to feed the calf and live weight.

Good Deep Cow

A good deep cow is smooth, well proportioned, with a short leg, and broad head, wide, middle, glossy coat, and a hose. It should have a soundness.

Oily, Greasy and Gassy

There has been born to the world the automobile, and the man who uses machinery, triplicate, that are recognized, wherever once used, as the most pure and best result gained, that has been placed on the market today—OILY OIL, GREASY GREASE and GASTY GASOLINE. The Miami Oil Co., at 25 South Market Street, Miami, Fla., is the manufacturer.

How often the farmer, when milking a long trip with his automobile or in the spring of the year when the time is money, does he pass his sunrise tomorrow with his horse plowing Farrow after Farrow? The farmer is prepared in time for seeding, the aggravating expenses of his own self-refusing to cover the miles and his tractor continually giving him engine trouble and not working up to the standard.

Quite often the car or tractor is blamed for being inefficient, whereas if care was taken in obtaining the proper OIL, GREASE and GASOLINE, much of the trouble would be remedied and time wasted on the farm. It is necessary to have OILS, GREASES and GASOLINE on account of being less expensive, in every case you will prove false economy. The time to waste out was wasted, and the farmer was not. This will, within a short time, cost the farmer much more money than if the best had been used. When it comes to the purchase of OIL, GREASE and GASOLINE, it is best to have the best.

A Pillow of Strength

The strength of the nation is based on the ability of its people to stand in a long race as long as they can, but the fact that they can stand that long is no indication of the conservativeness of modern finances. You can start a savings account now knowing that you are safe in saving with the Miami Oil Company. The Miami Oil Company is gaining day by day.

The Citizens National Bank

At Tippacanoe City, Ind., is a bank that has been established since its organization that it has taken place as one of the oldest banks in the State of Ohio, as it has been conducted with a conservation that makes it a safe and sound banking institution.

It was organized by business men of Tippacanoe City and visibility and fit. They were optimistic; they thought it was going to be the right side to the front.

With much at stake it had succeeded; the bank has a sound and conservative policy.
