TWO TORNADOS TAKE HEAVY TOLL

Fifty-One Killed; 100 Injured; Million Dollar Loss of Property is the Toll Taken By Two Twisters in the Southwest Late Yesterday.

The death toll in the tornados which ripped through the southwest last night in the wake of heavy rain and hail storms were at 50 today day as more definite reports were received here. More than 100 were injured.

The revised list of dead was placed at 55 in Arkansas, five in Missouri, five in Louisiana and one in Oklahoma, divided as follows:

In Arkansas, at Heber Springs, 15; Oppello, 5; Moscow, 8; Sheridan, 6; Wooster, 2.

In Missouri at Brandsville, 4, Competition, 1.

In Louisiana, at Oil Camp Town, 5. In Oklahoma, at Frederick, 1.

Telephone and telegraph wires were blown down and poles were uprooted in Arkansas and Missouri, where the twisters struck with fury last night.

The storm struck without warning. A few minutes later, 14 blocks of the residential district had been laid in ruins. Several fires started but the heavy rain following the storm extinguished them.

Apparently, two twisters struck, one starting near Heber Springs and traveling southward to Sheridan, striking first near Belleville in Yell county, and sweeping almost east to Sheridan, and thence to Moscow.

Property damage estimates all told at near the million-dollar mark was extensive over a wide area. From Frederick, Okla., in the southwest portion of the state, to Rolla, Mo., the storm skipped along and struck here and there, wiping out whole villages and destroying lives and property.

Relief for the stricken areas was planned today in conference between Governor Tom J. Terral and Adjutant General J. R. Wayne. Battery E. 26th coast artillery, stationed at Heber Springs, was ordered to assume charge of the situation there.

Major Sam Herron, second battalion, 26th coast artillery, was sent to Heber Springs last night and additional troops, including planes of the 154th observation squadron, Arkansas national guard, will be sent if necessary.

Gypsies Ask For Police Protection

150 Terror Stricken Gypsies Being Escorted From the State By Private Detectives. Were Frightened by

Cleveland, O., Nov. 26.—Guarded by a half dozen detectives, a band of 150 gypsies, in fast motor cars, today was speeding along the Pennsylvania-Ohio frontier, en route to their national headquarters in Washington, after appealing to Cleveland police for protection from a gang of Chicago gunmen.

The gypsies, desperate with fear, fled into a Cleveland police station after they had been accosted by two motor cars filled with the alleged gunmen on the road between here and Detroit.

Leaving their motor cars standing in the middle of the street, blocking traffic, the gaily-storied band of wanderers rushed into the station house shouting incoherently.

When the desk sergeant finally quieted them and restored a semblance of order, the leaders explained that a member of their band had quit the caravan in Chicago and joined a gang of gunmen. He had made demands for money, but when the leader finally refused the last demand, in Detroit the gangsters raided the gypsy camp, shooting and wounding the leader, who is now in a Detroit hospital, the gypsies said.

The remainder of the band fled towards Washington but, near Cleveland, they said the gangsters overtook and attempted to halt them. The police suggested they hire

private guards to protect them to the Pennsylvania state line and the gypsies quickly adopted that plan.

Washington, Nov. 26.—Determined to get to Panama in two hops if not in one, Commander H. T. Barlett piloted the all-metal PN-10 seaplane No. 2 out of Sigüenza bay, Isle of Pines, at 6:55 o'clock this morning and headed south over the Caribbean.

ANSWERS TAPS

Thomas, J. Sowers, who has resided at High and Thompson streets this village, for several years last past went to his eternal reward early this morning after several weeks of illness and grief from the loss of his life companion, Anna E. Bell, who survives him, and is an inmate at the State hospital, Dayton.

Mr. Sowers was a member of the Langston Post G. A. P., being probably the youngest surviving soldier of the war of 1861, in this vicinity. He was a member of company

Reg. O. V. I.

Toledo Police Confronted With Another Baffling Problem in Crew-some Find, Thought to Be Work of Mysterious "Clubber."

Toledo, O., Nov. 26.—Police here already bewildered by the ravages of the "clubber" today, were puzzled by the announcement of Coroner Charles Hentler that two men had been murdered and their bodies hacked to pieces in an effort to hide the crime.

A pair of human legs was found last Sunday on the Trabbic farm. Wednesday, pedestrians discovered a decapitated head near the Matzinger road. Yesterday, other parts of human limbs were discovered on the Reynolds road.

The coroner announced today that evidence shows these members could not have belonged to the same body. The head, he explained, is that of an unusually small man, while the legs were those of a huge male.

Several squads of police have been sent to search the scenes of the discoveries in the hope of locating the hands. They hope to establish the identity of the victims through fingerprints.

Mr. and Mrs. Carl Munnich, Mr. and Mrs. Clint Williams and Mr. and Mrs. Clyde Keith and son, Wilton, spent Thanksgiving day in Dayton as the guests of Mr. and Mrs. Ed Williams.

The beautiful country home of Mr. and Mrs. William Crowl on the P. P. O. O. highway, was the scene of a Thanksgiving reunion and a four o'clock dinner as a special number.

There were thirty who sat around the festive board. Those present were Mr. and Mrs. Wm. Crowl, host and hostess, J. D. Crowl, adn family of North Manchester, Ind. I. S. Girl Guides Radio as Band

DOROTHY AREY ROUX has sneaked in under the masculine elbow and carried off a job hitherto cornered exclusively by men. She is the only feminine radio operator in Chicago.

Miss Roux does for the radio programs of WLS, the Sears-Roebuck Agricultural Foundation station, what the men with the baton does for the orchestra, toning down the too strong voices or instruments and tuning up the weak ones by a simple twist of the key on the board.

When Howard E. Campbell, chief engineer of WLS, went scouting for someone with musical training to do this intricate bit of radio work, Miss Roux won out over all other aspirants because she is a musician. She not only plays the piano, but spends Monday, her day off, teaching music.

"I never saw a radio control board until I sat down to this one," says Miss Roux. "But before I am through I expect to know everything there is to know about it even to testing the tubes and batteries. It certainly keeps a person occupied. When I am not learning brand new things about the board itself, or bolstering up some weak voices at the microphone I am out in the studio arranging the artists, showing the 'first nighters' where to stand and seeing that no one has kicked the microphone cord loose from the wall socket."

When Boys Failed as Operators and "The Voice With a Smile" Came on the Scene

WHEN BOYS WERE OPERATORS. A SCENE FROM BELL SYSTEM HISTORIC MOTION PICTURES

TIME was when the woman's place was in the home.

The idea that a girl can run into the world to make her living was then as far fetched as the belief that a girl of vivaciousness carry the human voice thousands of miles and still be understood.

There are those who say that the invention of the telephone gave the girls their first real opportunity in the career aspect. It is certain that when the telephone came into being there were only a few girls engaged in any business.

OF THE TYPICAL OPERATING ROOM OF THE OHIO BELL TELEPHONE CO.

But the arrival of the telephone and its rapid growth proved that boys were inefficient in operating a telephone exchange. They were noisy, abusive to subscribers, fought among themselves and, in fact, acted in every way that a telephone operator should not.

Consequently a radical change was necessary and it was decided to try out girls. They demonstrated their worth and from that time on there was a gradual increase in employment of women until today they are found in practically every walk of business life.

BIBLE SUNDAY December 5, 1926

All the Protestant churches of America are asked to set aside December 5th as the Universal Bible Sunday.

If this date is not convenient for some churches, it is hoped that they will observe the occasion on some other Sunday near that time.

Universal Bible Sunday affords an opportunity once a year for pastors, Sunday school superintendents and other religious leaders to call special attention to the importance of the Bible in the life of the individual, the church and the world.

The open Bible in the printed languages of the people has been the source of more good, the inspiration of more movements for freedom and social improvement and the hope of more harassed and lost souls than any other single possession of mankind.

Practical Four-Room Plan for That "Castle in Spain"

FLAGSTONE terracing, iron grille balconies and a quaint wrought iron lantern give distinction to this little old-world one-story house. Rough plaster walls and a colorful tile roof make an attractive exterior that will find a welcome in any neighborhood.

But a carefully designed floor plan is its greatest appeal. One enters from the covered loggia directly into the large story and a half living-room, with its triple-arched windows reaching from the floor almost to the ceiling. The dining room alcove is conveniently located and well lighted. The kitchen has been deftly

planned to give the housewife the greatest comfort and step-saving. Everything about the house has been planned to give the utmost in stability and real home comfort. The walls and ceilings are insulated throughout with cotton to cut down the coal bills in winter and keep the home cool in the summer. Who could wish for a more beautiful little home.

UNION THANKSGIVING SERVICES

The union Thanksgiving service held yesterday in the Presbyterian church were very well attended. Rev. McKee opened the service with scripture. Rev. Stroup leading in prayer. Several good hymns of Thanksgiving were sung, Miss Helen Rhoades giving a lovely song of praise also.

Dr. Thomas was introduced by Rev. McKee and gave an excellent sermon from the 23rd psalm using the past tenses in the Psalms. Thus—"The Lord has been my Shepherd, I have not wanted—He hath led me in green pastures and beside still waters—in the valley of the shadow of death, thou hast been with me—Thou hast prepared a table before me etc."

Some very good points were made as to the obligation of every one to bow in meekness and thanks to the One God who gave strength, although sometimes men should think they had earned and therefore deserved their bread. Dr. Thomas said the earth and its fullness had been planned for God's highest creation—man. The storehouse of the earth pointed to his goodness and mercy. For these things we should be thankful, as well as for higher spiritual blessings, since we pray, "Give us this day our daily bread."

The green pastures of his love and mercy are also shown in the gift of Jesus Christ. The church of Jesus Christ yet in our midst, Dr. Thomas insisted was the greatest of all blessings, though men should regard it not. The still waters of his worship were incomparable to any entertainment or sermons by radio. The promise of God's presence is with his gathered people. For this blessing

we should be most thankful.

Thus God had led in paths of righteousness. One had said that as he walked in the streets of Covington that he had asked God to walk with him. Then as he talked to those he met, he remembered that he was in the presence of God.

In the shadows also, we could be thankful for his presence. Dr. Thomas referred to his own experience when his little ones would call in the night, and reaching out his hand in the darkness, there was quietness and rest from the realization of his presence.

The prepared table, the enemies from within, conquered and the running over of the cup of blessing he said, gave blessing to others about. One he mentioned he had met in Covington, who seemed to bless others as he heartily greeted his fellows, and believed we could all be more overflowing to those about, rather than having nothing about which to complain.

The service was enjoyed by all the pastors using the contributions for the Near-East Relief. Rev. Brandt, of Middletown, was also present giving the benediction.

THE LIVESWIRE

The Rooster Sunday School Class of boys of the Christian Church had a get-together at the home of one of their members, Luther Reichman, four miles in the country, Thursday, Thanksgiving night. Those present were: William Maier, Don Fox, Jack Sharp, Lawrence Aspinall, Jasper Landis, Fred Kendall, J. Norman Ely, Omar Caldwell, Jean Shafer, and the host, assisted by his parents, Mr. and Mrs. John Reichman.

The evening was spent with a good time in games and wound up with refreshments of apples, pumpkin pie, popcorn, pop ice cream bars, and ham sandwiches. You should have seen them go on the lunch. Boys that cannot function on this are not liveswires, but we had no failure with any of them.

Jack Sharp a chairman of entertainment did himself well in providing something for every minute.

Mr. Elmer Shafer and Mr. Reichman provided transportation and Louis H. Fox Assistant teacher of the class acted as chaperon. Our Slogan: "Every one in his place Sunday morning. Don't Fail!"

Danger in Celluloid

Celluloid is very inflammable and can be ignited by hot steam pipes, etc. It should, therefore, be handled very carefully. Celluloid may begin to burn at temperatures not far above that of boiling water.

Left-Handed Virtue

Don't hold that a mistake is necessarily serious. Many a man has done a good deed by mistake.

Solitude

Solitude, the safeguard of mediocrity, is to genius the stern friend, the cold, obscure shelter where mould the wings which will bear it farther than suns and stars. He who would inspire and lead his race must be isolated from travelling with the scents of other men, from living, breathing, reading and writing in the daily time-worn yoke of their opinions. —Baltimore
