CHRISTIAN CHURCH

Dr. O. S. Thomas, Pastor

Promptly at 9:00 o'clock the large orchestra of the Sunday school will play a musical number. Don't miss this treat. Immediately following Dr. Thomas, the pastor, will invoke a blessing upon the school and the hour and one-half of study and Christmas entertainment. After the prayer, Director Simes will lead the school in a spiritual Christmas selection from the song book. Then comes the lesson study. Following this will be given a promising and delightful entertainment by the children, directed by Miss Thelma Johnston, the teacher that seems to have a magic wand. It is the desire of the officers that every member and visitor of the school be in the building by 9:00 o'clock, to avoid a disconcerting effect that it might have on the program. You will enjoy the program much better. However, don't fail to come even if you are made to be late. We want every one in anyway connected with the school to be present this day, and to arrange to remain for the morning worship at which time special Christmas music by the organist and choir will be given. Christmas sermon number two by the pastor. His first one was a real inspiration to us all. It will be a real joyous event in your life if you will but let it. WONDERFUL ORGAN INSTALLED

The finest pipe organ in Miami county has been installed in the Jewel Theater, Troy, as a Christmas presentation to the people of Troy.

Many weeks have passed in its construction by the workmen of the Wurlitzer Company at Towanda, N. Y. Several representatives and workers have also been in Troy the past two weeks assembling and setting up the grand organ.

Some of the unusual features are the cathedral chimes. Variations of many different musical instruments included in the construction, the piano harp, xylophone, Banjo, violin, orchestra bells, tambourine, thunder and rain, the train whistle, automobile, etc.

The grand opening took place yesterday in a matinee and night program. Mr. Edward Dollinger, a nephew of Miss Zel Dollinger is the organist and gave some wonderful exhibitions of his art as an organist, yesterday. There is to be another program this afternoon and evening and Covington music lovers will undoubtedly take advantage of hearing the new organ.

Christmas so as to enable students to make their own gifts. Every student has entered into the new work, despite the fact that it is optional.

Deleware, O.—One of the most valued treasures in Ohio Wesleyan's rare book collection is the "She Bible," a copy of the first edition of the King James' version of 1611 unrevised.

The few copies extant gained the strange name because of two noteworthy discrepancies compared with

the true text. In Ruth 3:15 the appearance of the word she instead if he in the early edition sets the Wesleyan copy off as a rarity. The verse is in part "And when she baid it she measured five measures of barley, and laid it on her; and she went into the cities." According to scholars the word she is erroneous and should have been the.

A notable misprint in the "She Bible" is found in Matthew 26:36, "Then cometh Judas" should read—"Then cometh Jesus."

"I Never Thought a Radio Could Fool Me"

QUITE a common expression when a visitor to our store hears the Synchronphase for the first time.

Its tone is so full, round and true as voice or instrument itself, one does not realize that the Synchronphase is reproducing it.

Among several exclusive Grebe developments, the Coldwene is largely responsible for this superior reception, but Biscular Coils, S-L-F Condensers, etc., have much to do with it as you will realize if you will

Visit our store for a demonstration.
