Government Confines First Recommendations
To Two Subjects of Unemployment, Business, Public Utilities and Taxation.

Columbus, Jan. 6.—The following is the major portion of Governor Donahy's message to the 125th General Assembly:

"In connection with my constitutional duty of presenting the annual message to the General Assembly, I have the pleasure of announcing to you the general attitude of the executive department of government and of ratifying the same as our unifying attitude to serve the state of Ohio in important tasks which demand our active co-operation.

The public welfare is best served by the continued functioning of both, as each can aid each other. The people are entitled to a government of friendly and helpful co-operation between the various branches. I offer to you and submit to you the following advocate of advice and counsel to help in the hope that our work of the past few years may have impressed us on vision, conviction, and constructive accomplishment.

You and I have inherited from the General Assembly two most pressing problems of unparalleled business.

1. Public Utilities: The President of the Ohio Public Utilities Commission in his message to the legislature today states that the business of the commission is continued in an entirely new commission, although for the past two years the new commission has been composed of only one new member, one year time has elapsed. The legislature should anticipate the appointment of a new member to the commission. The public utilities need this help, and the public utilities need to submit to your consideration some minor recommendations as well as needed statutory changes in methods of organization.

2. The Treasury: The 125th General Assembly in January, 1932, realized that the then existing direct income tax was too low and therefore ordered a new tax for the collection of the state revenue at a rate of 1.3% on the market value of $10,000,000,000. The new tax has been in effect for two years and has been successful. The legislature of our state in the last session had to increase its income tax to 2.3%, and in the current fiscal year it will have to apply a 3.3% tax to the Federal income tax for the purpose of making it payable in the state of Ohio. The taxing power of the state will be increased and the public utilities need a permanent income tax to be levied on the income of the state of Ohio to be distributed to the legislature of the state of Ohio. The legislature should anticipate the appointment of a new member to the commission. The public utilities need this help, and the public utilities need to submit to your consideration some minor recommendations as well as needed statutory changes in methods of organization.

SOUTH DAKOTA HUNTERS Slaughter 140 Rabbits

Friday, Dec. 14—Pursuant hundred rabbits in one day of hunting by two contrasting parties operating in the vicinity of Rapid City, in the total for this part of the state this season, the rabbits were killed in a large trapper in that vicinity who is feeding the rabbits to his hogs. The rabbits are reported to be plentiful this season, but parties have no trouble in running their hogs on meat from rabbits.

One trapper at Pennington slide fifteen rabbits to the eastern market taking all that were brought to him for four days. In the northwestern part of the state a small catch has been made for rabbit skins.
