There is a responsibility of citizenship also, as well as the opportunity of citizenship," asserted the Governor, addressing his audience.

Addressing his remarks to the thousands of school children through out the state who were listening intently to him through radios, the governor urged the officials to do a count in educational discipline and in the conduct of their duties.

"Your state and nation will always be as good or as bad, as we boys and girls," Donahue said.

He then turned his attention upon the children within his hearing that the faculty and the lawyers and the judges and the speakers and the politicians and the government officials if they are not good they are not good and if they are good they are good for a useful occupation, and the taxpayers will have of them in the future those who are good and associate yourselves to become good citizens when you grow up to be the benefactors and not the barons of our state.

"Just a word to the sheriff and mayors and others of our state. You are the people who practically administer the affairs of the state and the government of the state. If our government is not as good as we would have it we have a right to call you to the attention of the responsible people.

There are Things

It is typical of Routzahn service that no stone has been left unturned to make it appropriate perfection. That only a woman's gentle hand can brandish a knife is a fact that Routzahn recognizes since we want our service to be all that it possibly can be, we have a competent lady assistant to help us with our work.

throwing owing. I realized the fire, going on, and turned to the audience that there was a fire in the house and we would all get out quickly.

"In a few moments everyone on the ground floor was going out there to the fire. I climbed to the attic by the west side stairway. The flames were coming down, also because I didn't know what I was doing, I only found one door and I tried to get out of there, but I guess they were all dead. Then the smoke got me and I just managed to crawl to the window and all through it myself. Please come to me and excite me to come back to the theater ladder."

As grief-stricken parents today claimed the bodies of their children through investigation was in progress to determine the cause of the fire in the Laurier Pictures theatre which yesterday evening claimed the lives of nearly 80 children.

The proprietor of the theatre, Arno Road, and three other persons who were placed under arrest and released on bail earlier.

Police said that they have evidence that some of the children were admitted to the theatre without tickets so that insurance payments could be made.

Bodies of the three victims of the fire were taken chiefly from a single room, which was in flames, leading from the rear of the theatre to the street, and it is believed that the children were trapped in the room after being thrown in through the roof of the theatre and probably burned to death.

In the hospital, many of the children who were carried away from the fire were still in critical condition.
