COVINGTON TOSHERS SHOW GOOD

Defeat Greenwich with Crushing Score of 21 to 9

Covington won over Greenwich here Saturday night the score of 21-9. The ten defense gave performance for the victors and during the second half they succeeded in nothing but a basket. An early offensive sent the home a head that was never headed. Captain Smith made a good short shot during the first thirty seconds of the game and during the next ten minutes, in the course of the hoop.

The Brown and White showed plenty of fight in fact it seemed as though they thought they were back on a problem at home and many of the Oliveon made several force attempts. However there were quite as few useful and the defeat thrown for their team by the score of twenty-one was not much.

This is the first time that Covington has defeated Greenwich A team.

Mr. Covington's center was high point man of both teams, having a total of twelve points of the ten point parade the big Alex Alexander, forward for the victors, finished second with a total of seven points; with McGee, a close third with a total of six.

Schweizer was engaged to referee the game, but was placed in the hospital because of the death of his brother.

Smith was sent as a substitute.

Covington plays two games this week. Friday night Pleasant Hill will come to Covington fully determined to avenge the defeat they had taken last year. The game will be played at the new gymnasium.

COLUMBUS LETTER
(Continued from page three)
...in the appropriation of additional funds for its purpose. Payments on contractors' estimates for new construction are now being partial from the maintenance and repair funds which have been temporarily transformed to the construction fund. This was due to the State not being able to meet the obligations of the appropriation for new construction in the bond busters due to the shortage of cash in the State treasury. While the condition is relieved by the fact of the year it will soon be made right in a few months if additional obligations are contracted for new construction are not yet secured.

This was not the case for the bond had been administered in the first class condition. The action taken by Senator Schenckman indicates the state is approaching a vacuum in road building a condition anticipated by many and others who have been invested in the highway bond.
