West Union—Authorities here today were trying to elucidate the reason in which Ralph Kemen, 20, and his father, Mr. Kemen, 57, met their deaths last night.

The theory was advanced that the young man under the influence of alcohol, killed his father and then turned a revolver upon himself, some officials were inclined to believe both deaths were accidental and were caused by 6 shells fired at a group.

The younger man’s widow witnessed the affair, and no systematic investigation was made today that she could not give a clean account of it.

Seven children were left fatherless the youngest of which is three years old, by Ralph’s death.

Lyon—200 Americans and 40 British mostly miners, are evacuating the province of Hacon in the evening to a Hacon church to the Evening News.

Ministers in the vicinity of Hanon are already leaving their positions and taking refuge in the Hacon church central, the dispensation station.
