PROSPECTORS FIND DEPOSIT OF GOLD

Weepa, Nev.—And end to noise
and confusion has come out of the beater of a quartz plate
mine here, according to reports received today, a gold cli-

gold that it will run at least 60 to the
bullion. It is reported to be as much as

discovered by Frank L. Leonard, of

Leonard. The youth who discovered the
mine says that it is a strong mining camp situation on the

ground of the original strike. The

McKevitt disclosed to the Union that he
had purchased the property and had

sold it within three miles of the

original strike. McKevitt is one of the picturesque
characters of the mining section. He is

famed for making one of the short
set campaign speeches on record. Four years ago, while running for

Assembly, he made the following speech: "We are in a dif-

fug state. I thank you." He and

his opponent each got the same

number of votes. They showed for the position and McKevitt

lost.

Many old timers were drooping in

Weepa today. There was Charles

Barden, the boyhood companion of a

little Florence bessie under the

Goldfield combination. E. C. Karr, who

promoted the Goldfield combin-

ation that produced around eight

million dollars in gold, was

absent, his health, which at one time

had been almost in equal gold some

months ago, was so bad that he

left the business of the old

Squaw, who made two fortunes in

Alaska placer operations.

DEATH OF MRS. W. R. CANNON

Minnie W. Cannon, 39 years of

age, was killed by a train at her

home here Thursday night. She

had been ill for the past few

months.

Many friends and relatives from

Piersonville and Cerrill came on

the scene, but the body was not

picked up for burial at this time.

Burial will be held at the Union

Park Cemetery, North of Dayton.

Major Layt-Borges and his companions in the Uruguayan trans-Atlantic flight, fell into the hands of wandering Moors after their plane crashed near Cape Juba, Africa, and they were captured. The Moors were friendly, and although they very expected to demand a "reward," they marched them to civilization. The map shows Cape Bla, where while the explorers started their hunt for the heroic adventurers, and Cape Juba, near where their plane fell. Above is shown a typical Moorish chieftain, such as became host to the flyers, and a typical Moorish camp, similar to the one in which the men were captured on their march to civilization.
