LATE NEWS FLASHES

Westerville—Prohibition has raised
the living standards of the poor men
and has made possible many lux-
uries, including more self-owned homes
according to a statement issued here
today by Dr. F. Scott McBride, gen-
eral superintendent of the Anti-Saloon
league of America.

"In proof of this assertion," said
the statement, "Randolph F. Sellers,
manager of the V. T. Taylor & Son
Co., of Cleveland, in a recent address
before the Ohio Association of Real
Estate Boards, declared that the ad-
option of the 18th amendment "has
changed the channels through which
some two billions of dollars of our
national wealth flows annually."
Mr. Sellers pointed out that money
formerly spent for intoxicating liq-
uor now goes into homes and home
improvements, and that as a result
the living standards of the entire na-
tion have been raised. He declared
that "along with the increased buy-
ing power of the working man, there
has grown a need for more concen-
tration on present land properties
rather than the development of un-
used areas."

With such better economic condi-
tions prevailing, the voters of the
United States would not for a mo-
ment consider a return to the con-
ditions experienced before prohibition
Prohibition is here to stay."

Akron—John P. Brown, 73, said to
be the last surviving grandson of
John Brown, of Harpers Ferry fame,
died here late last evening.

Georgetown—A blood-stained pock-
et knife is expected to determine
whether Mrs. Mayne McGee, 30,
died here about two weeks ago as
the result of a murder or a suicide.
It was said today. Authorities have
investigated the death for 10 days
without gaining a definite solution.
The knife has been sent to a Cincin-
nati chemist for examination.

Cincinnati—Walter Brikemier, 33,
of this city, today was in a serious
condition in a local hospital with
knife wounds in his chest inflicted
by two negroes who stabbed and ro-
bbed him Monday night. In another
part of the city two white men es-
caped after robbing W. L. Kesterman
Jr., grocery store owner, of \$54.

Columbus—Sentence of death im-
posed by the Huron County courts
upon James D. Lyon was affirmed
today by the Ohio Supreme court.
Lyon and his brother, Edward,
were jointly indicted for alleged first
degree murder, charged with killing
Frank E. Grath, Feb. 18, 1926.

Chillicothe, Ohio—Elias Fennessey
of Chillicothe, had an embarrassing
experience here when two bandits
forced him into the automobile near
City Park, took all his valuables, and
then stripped him of his suit of cloth-
ing. Clad only in his B. V. 's Fenn-
essey made his way through alleys
and back streets to police headquar-
ters where Sergeant John Burns
summoned a friend of the victim,
with an automobile and a spare suit
who took him home. Police have no
trace of the bandits as yet.

VOTERS DECIDE FOR NEW FIRE TRUCK

Only a small percent of the electors went to the voting booths Monday to express their sentiment as to a bond issue for the purchase of additional fire equipment.

In precinct A but 52 ballots were cast, 36 for the bond issue and 17 against.

In precinct B there were 11 ballots cast, 95 for and 16 against it; and in precinct C 72 were cast—59 for and 13 against.

Apparently little interest was had by the villagers, many not being informed that an election was to be held until the issue of the News of last Friday.

A bond issue of \$6500 will now be made and our fire department will be provided with a modern apparatus for the extinguishment of any fire within the confines of the village.

One other important matter should now receive the attention of our village officers and that is a requirement of the Board of Underwriters that in order to have the lowest rate of insurance on the property within the town two copies of a blue print of our water works system should be made, and one copy filed with the village clerk and one copy filed in the archives of the Board of Public Affairs. Let this be done without delay and cheaper rates on insurance will be the result.

AVIATION HAS TAKEN ROMANCE OUT OF LIFE FOR EXPLORERS

Minneapolis, Minn.—The explorer has been read out of the world!

Today is the day of the aviator and with his coming, romance has been taken out of the lives of men who seek the ends of the earth.

This is the belief of Roald Amundson expressed to International News Service while a visitor in Minneapolis.

"With the dog team, the campfires at night, the contact with jagged ice and the necessity of bending one's back to help the dogs with their loaded sleds, romance went out of exploration," Captain Amundson said.

"Aboard a dirigible, exploration is too monotonous," Amundson said with a trace of scorn. "You sit and sit all day. The barren ice slides by underneath. You have to move now and then to keep from getting cramped from sitting still. Nothing to do. The engines make all the effort and the only thrill is the constant danger that a screw mechanical contrivance crash to earth."

On the other hand exploring with dog teams over a frozen land has the thrill about it which appeals to "The questioning spirit of small boys who ever refuse to grow up."

"It's a battle at close quarters with the snow and the tricks of the weather, sickness among the dogs, the risk of a broken leg or a storm which can bury the camp for a week," he said. "The aeroplane takes the fight out of it."

Geneva—Germany insists upon immediate and actual disarmament in Europe. Count Bernstorff declared before the League of Nations preparatory disarmament conference today in setting forth the German Thesis on disarmament.

"The states disarmed by the peace treaties were disarmed as a prelude to German disarmament," said Count Bernstorff.

"Germany awaits impatiently the disappearance of the present fragility of European armaments. That is the League's chief task."

"Germany won't approve fictitious solutions."

LATE NEWS
FLASHES

Westerville—Prohibition has raised
the living standards of the poor men
and has made possible many lux-
uries, including more self-owned homes
according to a statement issued here
today by Dr. F. Scott McBride, gen-
eral superintendent of the Anti-Saloon
league of America.

"In proof of this assertion" said
the statement, "Randolph F. Salter,
manager of the V. T. Taylor & Son
Co., of Cleveland, in a recent address
before the Ohio Association of Real
Estate Boards, declared that the ad-
option of the 18th amendment has
changed the channels through which
some two billions of dollars of our
national wealth flows annually."

Mr. Salter pointed out that money
formerly spent for intoxicating liq-
uor now goes into homes and home
improvements, and that as a result
the living standards of the entire na-
tion have been raised. He declared
that "along with the increased buy-
ing power of the working man, there
has grown a need for more concen-
tration on present land properties,
rather than the development of un-
used areas."

With such better economic condi-
tions prevailing, the voters of the
United States would not for a mo-
ment consider a return to the condi-
tions experienced before prohibition.
Prohibition is here to stay."

Georgetown—A blood-stained pocket
knife is expected to determine
whether Mrs. Mayme McGee, 30,
died here about two weeks ago as
the result of a murder or a suicide,
it was said today. Authorities have
investigated the death for 10 days
without gaining a definite solution.
The knife has been sent to a Cincin-
nati chemist for examination.

Cincinnati—Walter Brikemier, 33,
of this city, today was in a serious
condition in a local hospital with
knife wounds in his chest inflicted
by two negroes who stabbed and ro-
bbed him Monday night. In another
part of the city two white men es-
caped after robbing W. L. Kesterman
Jr., grocery store owner, of \$54.

posed by the Huron County courts
upon James D. Lyon was affirmed
today by the Ohio Supreme court.
Lyon and his brother, Edward,
were jointly indicted for alleged first
degree murder, charged with killing

Chillicothe, Ohio—Elias Fennessey
of Chillicothe, had an embarrassing
experience here when two bandits
forced him into the automobile near
City Park, took all his valuables, and
then stripped him of his suit of cloth-
ing. Glad only in his B. V.'s, Fenn-
essy made his way through alleys
and back streets to police headquar-
ters where Sergeant John Burns
summoned a friend of the victim,
with an automobile and a spare suit
who took him home. Police have no
trace of the bandits as yet.

The Chinese chiefly disorganized Sun Chuan Fang troops, were ordered by the Cantonese in the Chapai district and then broke through the barriers on the international settlement, rushing through lanes and clambering over walls.

The British troops and the volunteers immediately gave battle and fighting continued for two hours with heavy casualties.

COUNSEL PLANNING FOR GRAY'S DEFENSE

(I. N. S. Dispatch)

New York—Counsel for Henry Judd Gray, whose illicit love affair with Mrs. Snyder led to the killing of the woman's husband, Albert Snyder, are engaged in working out a complicated and elaborate plan of defense.

It is understood that it will be based upon three lines:

1. Gray was mentally irresponsible at the time of the act;
2. He was under the domination of Mrs. Snyder whose will was so much stronger than his that he was practically hypnotized;
3. He had been imbibing of "bad booze" which impaired his faculties.

Just what defense will be presented for Mrs. Snyder is not known, but the fact that she retracted her confession and, along with Gray, pleaded not guilty at the preliminary hearing made it evident that she is going to make a strong fight for her life.

District Attorney Newcomb, of Queens County, Long Island, said he was ready to go before the Grand Jury today and demand an indictment for murder against both defendants.

"I plan to try them both for murder impartially without showing leniency to either one," said the District Attorney.

Asked if he would demand the electric chair for both, Newcomb said that phase of the case was too far in the future for discussion.

Funeral services were held for Snyder who was Art Editor of the publication "motor boating" at his home in Queens Village last night and the body was to be interred today in Mt. Olivet Cemetery.

Only 50 friends and relatives were admitted to the home. While the Rev. Dr. Everett D. Lyons of the Dutch Reformed Church of Queens Village, was conducting the service it required efforts of six policemen and a detective to hold back a crowd of 1,000 morbidly curious men and women who tried to break into the house to see the corpse.

Fearing that Gray and Mrs. Snyder may attempt suicide, police placed a twenty-four hour suicide guard over the cells. A Deputy Sheriff was instructed to keep constant guard over Gray and a woman Matron was placed outside the cell of Mrs. Snyder.

Instructions were given that electric lights be kept burning outside their cells all night.

Gray admitted that he has been intimate with Mrs. Snyder for two years and that he met her as often as twice a week in the hotel and in her home. He also said that Mrs. Snyder would rent a room in a hotel in Fifth Avenue near where he was employed and wait for him there.

The murder plot was approached by Mrs. Snyder in the Hotel six weeks ago, he said. She told Gray that she wanted to get rid of her husband and had planned to increase his life insurance.

Mrs. Gray is remaining loyal to her husband despite his admitted faithlessness and confession of murder.

BOY QUITS SUNDAY SCHOOL TO BECOME BURGLAR; JUVENILE INVESTIGATORS PUZZLED

South Bend, Ind.—Juvenile investigators here are puzzling over the psychology of Albert Bath, super intellectual high school student of seventeen, who left Sunday school class to burglarize a factory.

The crime which involved the theft of \$500 from the Hurwick Iron Company, cost the youth a sentence of from two to fourteen years in the State Reformatory.

Although young Bath has been subjected to a religious education all his life, he told authorities he did not believe there was a God for a year after. In the official intelligence report Bath rated 99 per cent above normal.

"I cannot imagine what it is in your mind, no alone what line it works," said Judge Cyrus E. Patee, who administered the sentence.

"It might be a good thing if you wrote a little book while you are serving your time, and in that way describe your outlook on life."

Judge Patee said the youth was unusually frank in discussing his religious beliefs and his attitude toward the law.

HINTS FOR AUTOISTS

Keeping the Car New
Never wash a car with strong soap and water as the acids in the soap have a harmful effect on the lustre of the finish. The safest way is to first dust the body with a soft woolen duster; then wash it with an easy flow of water from a hose without a nozzle. Dry with clean chamois and polish. To remove oil and grease or tar from wheels and running gear, add a little kerosene to a pail of water and apply with a sponge. Wash thoroughly covered running boards with gasoline or kerosene will restore them to their original newness.

For Better Brakes

It is generally believed that brakes should not be lubricated. But proper lubrication will make them give better service and lengthen the life of the linings; if they are greased, give them a kerosene bath; applying with a grease gun; let the kerosene soak for half an hour. Then apply motor oil. Leave it soak overnight. Before going out, wipe the excess oil off and drive the car back and forth several times with the brakes applied hard to remove the excess oil. This treatment will make your brakes effective an instant.

A Way to Prevent Carbon

Mix 35 percent kerosene with 15 percent denatured alcohol and pour a few tablespoons in each cylinder while the motor is warm. Turn the motor over several times by hand and allow to stand overnight. When the motor is started again do it the regular way. This treatment is effective if the motor is fairly clean and is repeated at frequent intervals depending on the condition of the motor.
