The first and final account of the estate of Mary A. Harvey, late of Miamisburg, has been filed by C. C. Combs, administrator of the estate of Mary A. Harvey. The estate is valued at $1,000.

VOTERS DECIDE FOR NEW FIRE TRUCK

Only a small percentage of the voters went to the voting booths Monday to express their sentiment as to whether or not to have a bond issued for the purchase of an additional fire apparatus.

In precinct A, 42 ballots were cast, 50 for the bond issue and 1 against. In precinct B, there were 25 ballots cast, 50 for the bond issue and 15 against.

Apparently little interest was had in the bond issue. Many people were being foreclosed that an election was to be held until the issue of the Nails of last Friday.

A bond issue of $6000 will now be made and our fire department will be provided with a modern apparatus for the extinguishing of any fire within the confines of the village.

One other interesting matter should now receive the attention of our village officials and is a requirement of the Board of Underwriters of New England in order to lower the rates of insurance on the property in the town.

The committee of the Board of Public Affairs has been appointed to copy the village clerk with the necessary papers and the proper forms of the above.

AVIATION HAS TAKEN ROMANCE OUT OF LIFE FOR GUMMI-PACKERS

Minneapolis, Minn.—The explorer who has been read out of the world.

Today is the day of the aviator and with his coming romance has been taken out of the lives of men and women who seek the end of the earth.

This is the belief of Robert Amundsen, who expressed it to the International News Service while a visitor in Minneapolis.

"With the dog team, the campfire at night, the contact with each other, the feeling of being on a land which was once a sea, the romance in a white tent," Captain Amundsen said, "all this has gone out of existence."

"The dog team has been taken out of the romance of the world. You must have the dog team and the romance in order to have the feeling of being on a land which was once a sea."

INVENTION OF OCARINA FALLS IN FEE TO DEATH

Reno—Reno, Nevada—the inventor of the ocarina, the tiny, hand-made instrument which has delighted or delighted many thousands of people has just died at Camarillo in Vegetable juice water.

Silvertip, who was 87, was killed by the bomb of his house on the last day of the Carnival by an admitting crowd of fellow citizens, many of whom were playing the instrument which made him rich and famous.

While acknowledging the greetings of the crowd he told his balance and fell fully into the street, dying immediately.
