TOY FACTORY SHIPS THIRD CARLOAD

A person would not perhaps think of the Christmas season at this time of year, when Spring is just beginning to open and the people are being warned of the Easter season; by the ads in this issue, if it were not for the trucks of the Con F. Drees Mfg. Co., which have been busy loading the third carload of Christmas toys for this season.

The consignments for the Woolworth Company and is being shipped to their warehouse at St. Louis, from whence distribution will be made to the stores of that large organization.

A carload of these toy wagons, consists of 1000 packed about a dozen to two dozen to a cartion.

At the present time the local factory is turning out 2400 of these toys every working day, and many small shipments are being made daily in addition to the larger ones to the big chain store organizations.

We hear a lot of talk about a factory for Covington—but here is one although greatly handicapped that is getting the business and employing a number of local people—why not give it a boost?

What is that old saying? A prophet is not without, etc?

DONATE TO P. T. A. LIBRARY FUND

At this time of the year housewives are beginning to clear out pieces of furniture, rugs, toys, etc., that are no longer needed and here is an opportunity to turn all that stuff into brand new books for the library where they are so badly needed.

Just bring any article you want sold for this purpose to the Boyer Shoe Store Room, which Mr. Geo. Worley has so kindly donated for this purpose Saturday-morning. Someone will be there to receive and tag it for the library fund. These articles to be sold free of charge at the Community Sale Saturday P. M. and every penny will be clear profit for the library fund. Anything that will sell will be accepted. Household articles, tools, toys, etc., even a Ford car would not be refused. This is an opportunity to dispose of article no longer useful to you or that the children have outgrown, will help in a most worthy cause. Articles too heavy to carry will be called for. However deliver them if you can as that will help make the sale a more profitable one. Everyone is interested in the library. Remember if an article only brings a dime that will make 90 cents a dollar. For further information call Louis H. Fox. Mrs. Arthur Maier, Mrs. J. J. French or Mrs. W. H. Paff.

RADIO AND DANCING KILL MUSIC IN BRITISH HOME

London.—The radio and dancing are killing music in the home in England, according to the British Music Publishers' Association, an organization of publishers in England are faced with a crisis due to the present popularity of the radio and dancing.

Meeting in an annual conference, the Association after noting the disappearance of yet more music publishing firms, and the amalgamation of others, adopted a resolution urging that the public be educated in the enjoyment of serious music.

"Broadcasting has a good deal to do with the present crisis," said one speaker. "You cannot listen-in and play the piano at the same time. The advent of broadcasting has decreased the performance of music in the home."

"There is no doubt but that broadcasting has begun to kill the good old chamber music of the home," said another speaker. "In many homes in England today the piano is used as a pedestal for the radio loud speaker. That is a sign of the times."

Mayville, The new type corn
husker fluting, invented by E. G. Ad-
ams, local manufacturer, will be given
a trial by the government depa-
rtment of agriculture to discover if it
is an efficient way to destroy corn
borers. Adams perfected his inven-
tion about a year ago, the fluting mak-
ing it possible to chop stalks into
such small particles that the borers
are cut to bits.

Senator Frank B. Willis referred
the claims of Mr. Adams to Redick
H. Delap, assistant secretary of agri-
culture, in a letter, which, in part,
read: "It is a new thought to me that
the corn borer could be eliminated
by a new type of corn husker. If this
is a fact it should receive exceedingly
serious consideration by the expert
scientific men of your department."

Lebanon—"Uncle Steve" Phillips,
owner, trainer and driver of five
Grand Circuit horses has taken a
string of racers to Dayton to prepare
for his sixtieth racing season, although
he will celebrate his 85th birthday
anniversary March 27th. He is the
only living member of the famous
Grand circuit "Big Four" which in-
cluded "Pop" Geers, Sam Kees and
Charles Fourth.

In July, 1919 Phillips established a
record that has never been equalled
in a "David Harum" deal, "Uncle
Steve" became the possessor of a
blind pacer known as Seepy Tom
value, \$20. After a few weeks train-
ing Phillips drove the blind pacer
over a mile track in 2:12 1/4, a driver
owner record that has never been
equalled.

This season "Uncle Steve" is train-
ing Bengin Todd, Bengin the Great,
Gertrude Direct, Birdillon and Rex
Forbes at the Dayton half mile oval.
And will drive Bengin Todd in the
Grand Circuit races at Toledo in com-
petition for the \$40,000 grand prize
offered for the winner.

Although this is his 60th season as
a professional reinman, Uncle Steve
drove as an amateur about Waynes-
ville and Xenia before taking har-
ness racing seriously.

SYNOPSIS

Tom Denker and Bob Mills, trying to break into New York Society, have reached the point where their furniture consists of Soap boxes, their diet what they can steal from the dog's milk and the Parrots' cracker, and when one suit between them is the best they can do. The arrival of uncle Will Denker and Aunt Alice King complicates the plot. Tom is forced to find a wife and a well furnished apartment at least, while his relatives are there. How Liz throws aside her beloved "Bing" and becomes Mrs. Thomas Denker for the time being how Mrs. Reese the housekeeper mourns for her dear departed Ahenbarbus and how Bob has a wife wished on him in the person of Elaine Linn. All these things combine to make the title "When a Feller Needs a Friend" very appropriate.

"The Greatest Tire in the World"

Recently Goodyear announced "The Greatest Tire in the World."

They said this new tire has an All-Weather Tread specially designed for balloon tires, that it does away with all existing ideas of how long a balloon should wear, that it gives better traction, more non-skid.

Now—we know something about tires. We tested this one, looked it over, cut one up, tried it for everything we could think of.

Take our word for it, it is the world's greatest tire.

We have your size. Come in and see it. More people ride on Goodyear Tires than on any other kind.
